About the Malabo Montpellier Panel

The Malabo Montpellier Panel convenes 13 leading experts in agriculture, engineering, ecology, nutrition, and food security. It aims to inform policy choices by African governments to accelerate progress toward food security and improved nutrition. The Panel identifies areas of progress and positive change across the continent and assesses what successful African countries have done differently. It identifies the institutional and policy innovations and program interventions that other countries can best replicate and scale. For more information, please visit: www.mamopanel.org.
