The Ukraine Crisis and African Economies

Exposure to Global Commodity Trade and Market Disruptions: Impacts on Growth, Poverty and Food Security in Malawi

In response to the Russia-Ukraine conflict and its impact on African countries, AKADEMIYA2063 developed the Ukraine Crisis Brief Series, a comprehensive research series to provide evidence-based simulations of the ramifications of the crisis. Hinged upon data, analytics, and past crisis patterns, the AKADEMIYA2063 Ukraine Crisis Brief Series analyzes the economic and socio-economic impacts of global market disruptions induced by the Russia-Ukraine conflict. These research findings are published on AKADEMIYA2063's Ukraine Crisis and African Economies portal.

Session XIV of the AKADEMIYA2063 Ukraine Crisis Webinar Series will dive into the global commodity trade and market disruptions and their effects on Malawi's growth, poverty, and food security.

Based on AKADEMIYA2063's Ukraine [Brief 25](#), "Exposure to Global Commodity Trade and Market Disruptions: Impacts on Growth, Poverty, and Food Security in Malawi," this session will discuss Malawi's level of exposure to global commodity trade and market disruptions, as well as the effects on growth, poverty, and food security.

In addition, the speaker will examine Malawi's projected deterioration in Terms of Trade (TOT) due to the Russia-Ukraine war, the ensuing decline in growth and employment, and the negative impacts on income levels, distribution, and general cost of living in Malawi.
